## EDUCATION

---

- **Vellore Institute of Technology(VIT), Bhopal** Bhopal, Madhya Pradesh  
*B.Tech in Computer Science; CGPA: 7.8*  
August 2023 – May 2027
- **Chasnalla Academy, Dhanbad** Dhanbad, Jharkhand  
*Class XII (CBSE) ; Percentage: 80*  
August 2020 – April. 2022
- **De Nobili School F.R.I, Dhanbad** Dhanbad, Jharkhand  
*Class X (ICSE) ; Percentage: 95*  
April 2009 – April 2020

## PROJECTS

---

- **Machine Learning & IoT-Based Smart Glasses for Visually Impaired (Team Project):** - Project: ArthDhristi – A Simple ML/IoT-based smart glasses system designed to perceive the user's environment and generate real-time responses. Features include: - Real-time Reading: Converts text from the user's surroundings into speech. - Object Detection: Identifies and announces objects in the environment. - Smart Assistance: Provides contextual feedback for enhanced accessibility. - Tech Stack: Python, TensorFlow, OpenCV, ESP32 Cam & Wifi Module, Flask, Firebase
- **Deep Learning-Based Real-Time Sign Language Detection System (Team Project):** Project: Signify – A real-time sign language interpretation system designed to improve communication for individuals with hearing or speech impairments. Features include: Single Gesture Detection: Uses CNN-based image classification for accurate recognition of static signs. Multi-Gesture Recognition: Employs LSTM networks for dynamic gesture interpretation using sequential input data. Technology: Python, Flask, Deep Learning, Neural Networks, Next.js (Frontend)
- **Interactive Alphabet Learning Chart for Kids (Web):** Developed an engaging educational Web application that teaches children the alphabet through interactive animations. Built with Html,Css layouts. Highly appreciated by preschool teachers and parents.
- **Multiplayer Tic-Tac-Toe (Web):** Created a fully functional Tic-Tac-Toe game supporting player-vs-player modes. Available as web version (HTML, CSS, JavaScript )

## RESPONSIBILITIES

---

- **Campus Ambassador, IIT BHU (2025):** Represented VIT as official Campus Ambassador, promoted technical events and workshops, and coordinated with student communities across multiple colleges.
- **Core Organizing Team Member, VIT Bhopal:** Played a key role in organizing VIT Bhopal's first-ever Night Fest and annual sports fest Advitya. Managed logistics, sponsorships, and event execution for crowds of 5000+ students.

## CERTIFICATIONS

---

- **NPTEL Certification – Machine Learning:** Completed the IIT-certified online course “Machine Learning” by Prof. Sudeshna Sarkar (IIT Kharagpur) with Elite grade.
- **Coursera Certification – Bits and Bytes of Computer Networking:** Completed Google's “The Bits and Bytes of Computer Networking” course offered via Coursera (verified certificate).
- **Udemy Certification – Professional Development in Administration & Management:** Earned professional certification in leadership, team management, and administrative skills through a comprehensive Udemy program.
- **AWS Certified Cloud Practitioner (CLF-C02, English):** Officially certified by Amazon Web Services in cloud concepts, services, security, and billing principles.
- **AWS Technical Essentials & Intellipaat Professional Training:** Completed hands-on AWS Technical Essentials course and Intellipaat's advanced AWS certification program covering EC2, S3, VPC, IAM, Lambda, and more.

## SKILLS

---

- **Intermediate:** Node.js, Javascript, Data Structures and Algorithms, SQL
- **Comfortable:** Python, C++, JAVA, HTML
